HOPE DIMS IN COAL CONTROVERSY ITALY-GREECE NEAR BREAKING POINT

SAY THE DEMANDS MADE ON GREECE ARE UNREASONABLE

With formal peace in the near east only a few weeks old and the nations of Europe still turbulent and restive from the great war the grim shadow of a new conflict appeared upon the horizon today.

Italy sent an ultimatum to Greece demanding reparations and an apology for the killing of General Tellini, the Italian head of the allied commission for the delimitation of the Albanian frontier, and four of Tellini's colleagues.

As soon as the ultimatum was sent, reports of naval and troop movements began to pour out of Italy, and premier Mussolini was said to be making war plans with military and naval officials.

Advices from London said that the allied statesmen were opposed to another war and that the league of nations might be invoked to maintain the peace.

BULLETIN

LONDON, Aug. 30.—Greece has agreed to pay \$2,500,000 indemnity for the Italian officials of the Albanian boundary commission who were assassinated near Janina, according to a Central News dispatch from Athens.

OFFICERS GET CANDIDATE ON LIQUOR CHARGE

M. J. Lescher, candidate for city treasurer at Lorain, was arrested by federal officers yesterday on a charge of illegal possession of liquor. Lescher runs an automobile accessory shop and the liquor was found in bottles concealed in inner tubes at his store.

He was arraigned before Justice S. J. George yesterday afternoon, pleaded guilty, and was fined \$500 and costs, which he paid.

Bar Association May Endorse World Court

MINNEAPOLIS, Minn., Aug. 30.—The first set addresses out of the way, the American Bar Association annual convention today took up the first real work of the session, when a number of important committees reported and submitted resolutions for adoption.

The association's committee on international law, through George W. Wickersham, attorney general in the Taft administration, urged the association to lend its aid toward the calling of a conference of nations in the Hague for the purpose of clarifying and extending the rules of international law. Three members of the committee, in addition, recommended that the association declare for participation by the United States in the world court.

Mr. Wickersham, George Donahay, secretary of the committee, and James B. Scott of Washington, D. C., delegates to the second Hague conference, signed this supplemental report. Robert Lansing, secretary of state under Wilson, member of the committee, did not join in the world court recommendation. The committee on jurisprudence reported in favor of legislation by Congress designed to protect aliens from state laws or local prejudices in violation of the rights of foreigners under United States treaties with other nations. This report raises the question of Pacific Coast states legislation against Japanese and Hindus and it is expected to precipitate lively debate.

Miners Taking Tools From Mines

HAZELTON, Pa., Aug. 30.—In anticipation of a strike in the anthracite coal region many miners today began to remove their tools from the underground workings and will quit tomorrow night. They will take this action in response to the notice to the local unions that they are to suspend work. Sept. 1 in the absence of any new agreement. It appears certain even if terms are reached tomorrow that many of the men will be idle Saturday.

SHIP COLORADO ADDED TO NAVY, BEST IN WORLD

CAMDEN, N. J., Aug. 30.—One of the biggest and most powerful battleships in the world was added to the United States navy today when the U. S. S. Colorado, recently completed at a cost of \$27,000,000, was formally accepted from her builders and commissioned by Captain Martin E. Trench, commandant of the Philadelphia navy yard.

The Colorado and her sister ship, the West Virginia, are the last super-dreadnaughts which the United States will put into service for at least ten years, construction of new battleships being prohibited during that period by the Washington naval treaty which authorized the completion of these great fighting machines.

Simple ceremonies marked the commissioning of the Colorado, the festivities which usually accompany such an important naval event being dispensed with because of the public mourning over the death of President Harding.

The new ship, of the big warship—1,400 strong, and commanded by Captain Reginald Rowan Bellnap, who was in charge of the American mine laying squadron in the North sea during the world war.

FREE STATERS WIN AT POLLS

DUBLIN, August 30.—The election count-up to noon today showed 56 free staters elected to the Dail Eireann, 32 republicans, nine independent, eight farmers and seven laborites.

Free state officials claimed that a majority in favor of the Anglo Irish treaty was assured.

The canvass of ballots to date show five women republicans elected including Mary MacSwiney, the sister of the late Terence MacSwiney, former lord mayor of Cork who died on a hunger strike.

James Figgis, an independent, S. T. Kelly and Ernest O'Mallie were among the successful candidates.

The laborites failed to make the showing they expected. President Johnson of the labor federation, was barely elected.

The votes counted showed 350,000 for free staters, 200,000 for republicans and 100,000 for the others.

The election of all the free state ministers is now assured.

The republican victors include Mrs. Cathal Brugha, wife of one of the leaders in the old republican army, and "acting president" Rutledge, who was proclaimed chief of the "republican government" after the arrest of DeValera.

Summon Doctor In Krewson Case Widow In Faint

CLEVELAND, Aug. 30.—During the examination today which is being conducted by Assistant County Prosecuting Walter I. Krewson, into the death of John L. Farris, wealthy shoe dealer, found dead in the bath tub at his home Sunday, Mrs. Mathilda Farris, the widow, became overwrought and fainted.

Mrs. Farris fell back in her chair and after she had become partly unconscious became violent with those who were trying to revive her. While still partly in the faint, she cried: "John! John!"

She grabbed frantically at those near her and would have fallen to the floor had she not been assisted.

Mrs. Farris was clothed with Krewson and County Detective McHugh for more than two hours. Dr. A. A. Wheeler, then Ethel Hunt, an inmate of the state hospital, examined the body.

Because of the alleged "gross neglect and carelessness" on the part of the authorities, amputation of her right arm became necessary, it was claimed.

The charges transmitted to Governor Donahay included: Gross immorality by Raymond McNamara, son of Mr. McNamara, involving alleged "intimate relations with girl inmates." Misconduct by Mr. McNamara to such an extent that "John McNamara, Jr., threatened to use a revolver unless his father ceased attention to a certain woman employee," "extreme cruelty on the part of Mr. McNamara; lack of regard for protecting the finances and property of the state; that Mr. McNamara was in the habit of entertaining week end parties of from 10 to 50 guests at the expense of the state, at which times guests often would become intoxicated."

The charges included statements that Mr. McNamara compelled in-

ANASTASIA, AMERICAN PRINCESS, DIED WEDNESDAY IN LONDON

Princess Anastasia of Greece, formerly Mrs. William B. Leeds, widow of American tinsplate magnate.

Princess Anastasia, wife of Prince Christopher of Greece and widow of William B. Leeds, tinsplate king, is seriously ill in London. Sir Thomas Horder, eminent cancer specialist, and Dr. Turner, an American physician, hold out but small hope for her recovery. Prince Christopher is at her bedside, and her son, William B. Leeds, who married the Princess Xenia of Greece, also is with her. She married Prince Christopher in 1920.

ASKS REMOVAL JOHN McNAMARA FOR MISCONDUCT

COLUMBUS, O., Aug. 30.—Accusation that John McNamara, Columbus, assistant state welfare director, was guilty of misconduct and extreme cruelty is included among the 17 specific complaints transmitted today by Attorney General Crabbe to Gov. Donahay. The attorney general asked the governor to conduct an early hearing relative to the complaints, which were filed with Attorney General Crabbe by various persons. If the general requested, the assistant Director McNamara be dismissed.

"Many of the charges against McNamara are supported by affidavits," said Crabbe. "If any of them are true, Mr. McNamara is wholly unfit to fill the important position he now holds."

In addition to the specific charges against McNamara, the attorney general forwarded to the governor a statement by Mrs. Jas. J. Kubec, Cleveland, who alleged that, through "carelessness and negligence," by Mr. and Mrs. McNamara, in the administration of the girls industrial school at Delaware, acid was poured on the arm and hand of Mrs. Kubec, then Ethel Hunt, an inmate of the institution. Because of the alleged "gross neglect and carelessness" on the part of the authorities, amputation of her right arm became necessary, it was claimed.

PRINCESS DIES, WAS OHIO GIRL

LONDON, Aug. 30.—Members of the family of Princess Anastasia of Greece said this afternoon she had not been definitely decided whether the body would be sent to United States for burial. She died shortly after midnight of a mysterious illness which is generally believed to have been cancer.

Sir Thomas Horder, specialist, who was called into consultation, refused to discuss the report that the princess suffered from a malignant growth. It was known she had symptoms of jaundice and liver trouble. It is reported that one or more operations were performed.

Princess Anastasia was a native of Ohio. She married George H. Worthington in 1914, subsequently divorcing him. Several days after she obtained her divorce she married William B. Leeds, multi-millionaire tin plate magnate. After his death she married Prince Christopher of Greece in January, 1920. At the time of her entrance into the Hellenic royal family she gained the sobriquet of "the dollar princess."

Princess Anastasia embraced the Greek Catholic faith.

DOLLINGS CO. IN FRAUD SUIT

DAYTON, O., Aug. 30.—First suit against the R. L. Dollings Co. and various subsidiaries of this firm to be filed in Montgomery county was filed today in common pleas court by Cornelius Neher, farmer, rural route No. 10.

In his petition, Neher asserts he was induced to buy 45 shares of stock of the North Carolina Farms Company and 10 shares of the International Note and Mortgage Co., through fraudulent representations on the part of stock sales agencies. He petitions the court to set aside the sum he paid for this stock because of the fraudulent sale and asks for recovery for the various firms to protect interests of 50,000 stockholders in Ohio.

Neher asserts that through fraudulent manipulations, defendants collected \$10,000,000 annually from various persons and divided 15 percent of this sum under the guise of "sales commissions." The sum of \$4,500,000 received from stock sales was collected and distributed among themselves, Neher declares.

He says he was induced to buy the stock on the promise of 7 percent dividends paid semi-annually, and other "false and misleading data" given by sales agents.

Defendants listed in Neher's petition include: The R. L. Dollings Company, Ohio; William B. Leeds, Dayton; Harry E. Leeds, Columbus; The Farms Company, the Recording Devices Company, the International Note and Mortgage Company of Ohio, the International Note and Mortgage Company of Indiana, the American Motor Truck Company, the Crane Ohio Ice Company, the Burton Townsend Company, the E. B. Shaw Company, the Florida Farms & Industrial Company, the Franklin Brick and Tile Company, the Matthews Engineering Company, the Kenton Savings Bank and Trust Company, John R. Willbanks, Will A. Norton, L. E. Simes, W. F. Russell, Frank J. Russell, James E. Johnson, R. M. Averett, Silvester C. Clark, Scott W. Waller, Fred D. Connelly, F. F. Mykranitz, H. C. Ross, S. M. Morris, Mrs. Dwight Harrison, the R. L. Dollings Company of Indiana and the R. L. Dollings company of Pennsylvania.

Similar suits have been brought by other stockholders of these firms in various parts of Ohio, Indiana and Pennsylvania.

TWO DIVORCES APPLIED FOR

John Deaman of this city, has filed an action against Lydia Deaman, asking for a divorce on the grounds of three years' wilful absence.

Georgia Torlate, of Lorain, also asks for a divorce from John Torlate. She states when she married him he was a laborer. Out of her own money she paid his way while he learned the barber trade and then bought him his tools and chair. He opened a shop at Lorain, but later neglected his business and became very cross and surly. On July 23, he sent her to Cleveland on an errand and on her return she found he had disappeared, taking his tools with him. She asks a divorce and restoration of her maiden name.

The death of Albert J. Saywell, 50, of 210 Princeton avenue, took place last night at Memorial Hospital. The deceased was in the employ of the American Loco Co. as a designer, coming here from Pawtucket, R. I.

He is survived by his wife and daughter. The funeral will be held at the home, 210 Princeton avenue, Saturday afternoon at 2 o'clock. Rev. S. B. Redford will officiate.

CANOES HAS CHANCE TO BE HEAD OF ELKS

SANDUSKY, O., Aug. 30.—More than 2,000 Elks and fifteen bands participated today in the parade, the spectacular feature of the twenty-fifth annual or silver jubilee reunion of Ohio's antlered herd, to be concluded tonight with a grand ball at the Coliseum, Cedar Point.

The parade formed in Sandusky and with A. Bart Horton, of Cincinnati, president of the Ohio Elks, leading the Ohio procession passed through about two miles of street on the way to the Cedar Point boat landing where the Elks boarded the steamer G. A. Boeckling for Cedar Point.

Upon arrival at the resort the parade was reformed and proceeded to the Hotel Breakers where it disbanded.

The Cherry Pickers of Toledo, occupied a prominent place in the line of march. Lorain, Fremont, Akron, Lakewood, Marion, Mansfield, Lima and Findlay Elks were much in evidence.

The annual election will be held this afternoon at the conclusion of the association's final business session which will be held to order at Cedar Point at 8 o'clock. Charles L. Justice, of Marion, and George Canoles, of Lorain, are running for the governor's job.

Secretary John W. Rainey, Columbus, and Treasurer William Petrie, Cincinnati, will be re-elected. Cincinnati and Cedar Point are after next year's convention with the chances favoring Cincinnati.

State Fair Has Governor's Day

COLUMBUS, Aug. 30.—Featuring today's program at the State fair will be the award of the \$2,000 governor's purse in the three-year-old trot and the inspection of the entire fair and exhibits by Governor and Mrs. Donahay and other state officials.

Designed as governor's day, fair officials expect today will be the biggest day of the week, and especially as the weather promised to be fine.

Seven bands furnished music throughout the day, concerts being given at the bandstand, coliseum and south park by the Marietta band, the Dover band, the Boy's Industrial School band, the Sidney band, the 168th Regiment band, Laupham's band and the West Union band.

Three races, in addition to the governor's cup trot, are on today's card—the 2:08 pace, the 2:16 trot and the 2:13 pace.

The first accident of any consequence occurred Wednesday night when James Chaney, 12, was struck by an unidentified autoist. Hospital authorities today said the injuries were not serious, however.

An interesting menu has been provided for fair visitors Friday, "live stock day," with the finals in the cattle judging, eliminations in the horse-shoe pitching contest and final competition in the state championship baby contest with the cup award to the winning baby by Gov. Donahay.

Law Student Gains Knowledge

Horace Rose, a law student, of Lorain, is spending considerable time at the court house getting wise to legal methods in the court house. He is being assisted by Clerk Mabel Marsh and her assistant, and says he has been able to acquire much useful information.

ALBERT J. SAYWELL, DIES AT MEMORIAL HOSPITAL

HARRISBURG, Pa., Aug. 30.—Hope for settlement of the anthracite coal strike, now scheduled for Sept. 1 was dim today.

Predictions that the program of settlement outlined by Governor Gifford Pinchot, late yesterday would be rejected, were voiced by those close to both operators and miners.

It was the operators who would make a flat rejection, however, according to the statements of those close to Samuel D. Warriner, and his committee from the Anthracite Operators association, now in Philadelphia in executive sessions discussing Pinchot's plan.

The miners were behind closed doors here threatening out the stand before the scale committee of forty men. It was expected the miners would eventually sign on the dotted line, particularly if it is learned definitely the operators will reject the negotiations now being conducted.

The miners were behind closed doors here threatening out the stand before the scale committee of forty men. It was expected the miners would eventually sign on the dotted line, particularly if it is learned definitely the operators will reject the negotiations now being conducted.

The operators, it was learned from authoritative sources, were taking the following stand on the governor's proposals:

THE WAGE QUESTION: A ten percent increase is beyond reason. Such an increase suggested by the governor will only add to the unrest in the coal fields if not granted; a wage increase cannot be paid without a boost in prices to the coal burning public.

THE SEMI-CHECK OFF: The operators have no objection to the governor's plan, other than the maintenance of the union. A leading operator was authority for the statement this morning that "full recognition" would not be granted.

THE EIGHT HOUR DAY: The operators agree to this, with the minor exception of saying that men, mule handlers and some of the maintenance laborers, under the 12 hour day and should be allowed to retain it.

Following failure to agree last night on a contract for maintenance men to be left at the pumps of the mines in the event of a strike, the operators and miners came to terms this morning.

James A. Gorman, joint secretary of the conferences between the two factions, announced that the operators had agreed to sign a contract by which all maintenance men, working on the basis of a test hour day, shall be placed on the basis of an eight hour day, reducing their regular wage plus \$1.50 daily for the period of the strike.

This agreement as announced by Gorman, assures the mine properties from destruction by water in the event of a walkout.

On the miners' side it was learned (Continued on Page 9)

DONAHEY MAY REMOVE POOR

COLUMBUS, Aug. 30.—Governor Donahay may remove from office George T. Poor, Cincinnati, a public member of the state committee on the rights of the colored race, if he is unable to secure a utility controlled by the commission, according to an opinion rendered by Attorney General Crabbe. The governor is considering his action today.

The governor, several weeks ago, stated that Mr. Poor owned a share in the Cities Service Company, which, the governor said, owned a number of utilities under jurisdiction of the state commission. He asked the attorney general for an opinion whether such stock ownership constituted a conflict of interest.

While "mere ownership" of stock of a corporation does not mean the owner is a shareholder, the attorney general said, "ownership" of stock of a corporation by the attorney general and his assistants is a conflict of interest.

GIANTS-LOOK LIKE WINNERS

NEW YORK, Aug. 30.—If John McGraw had handpicked the National League schedule for the ensuing two weeks, he hardly could have arranged matters to the greater satisfaction of the New York Giants. The latter will either win the pennant within the interval named, or prove themselves the best team in the league since the Pittsburgh Pirates failed to preserve a 7-1-2 game lead late in the season of 1921. The Giants hold a 3-1-2 game edge over the Reds today. If past performances are worth the price of last week's gush, this margin of safety may be doubled before the end of two weeks. The schedule is top-heavy with Giant luck.

Starting today, the McGraw entry will begin a three-game series with the Dodgers, a demoralized outfit which has not won a ball game in its last nine starts. To date, the Dodgers have been able to win only five of the fourteen games played with the Giants. The next victim is the tail-end Braves. They will play four games at the Polo Grounds and since their record against the Giants is four victories in fifteen games, that series seems to be in the bag also.

The Phillies, who have lost seventeen games in nineteen played with the Giants, follow the Braves here for a three game series, after which the Giants will jump over to Boston and daily with the Braves again.

The Cincinnati Reds in the meantime will be in the midst of a running fight throughout the week. In successive series they will take on the Cubs, Cardinals and Pirates and will do well to win seven of the twelve games played. That much is indicated by past performances. In the season's returns to date the Reds have won six and lost eight to the Pirates and enjoy the slight advantage of ten games won and eight lost to the Cubs and eight games won and seven lost to the Cardinals.

Of course, what happened in June and July has nothing whatever to do with what may occur in September. The Reds are stepping very high and pretty at the moment, having just completed a tour of the devastated east at a pace so smart that twelve victories in fifteen appearances for an average of .800. At the same time the Giants' home stand was worth exactly eight victories in sixteen games, which is .500 baseball in our first reader.

In other words the Reds are riding high on the crest and the Giants are slumping, but it is about time for the sneering villain to enter, backstage. The latter is a schedule that forces the Reds to do battle with the strong clubs of the west while the Giants are fattening on the second runners of the east.

FOOTBALL PLAYER DIES OF EXHAUSTION

CLEVELAND, Aug. 30.—What is believed today to be the first death resulting from this year's football season occurred yesterday when Alphonzo Hankiewicz, an East High School sophomore, dropped dead at the close of the first practice at Gordon Park.

Two strenuous practice, coupled with weak heart, is believed to have caused the death. Alphonzo was "out for the team" and entered strenuously into the practice, according to other candidates.

At the close of practice the boys were told to take two laps around the track and while running around Alphonzo dropped as if exhausted. When he failed to arise his teammates returned and found him dead.

The father said today the boy had never complained of a weak heart.

CANDIES MEET TINNERS' TEAM NEXT SUNDAY

On next Sunday afternoon the Moulton Candies will cross bats with the Webber & Howe Tinnings, fast class A aggregation of Cleveland. Manager McCann has secured this team at a large expense, and hopes for a large attendance. This will be the only game in the city next Sunday.

The Candies have been called for practice tomorrow evening at 5.30.

Win early and avoid the rush, was the motto of the Tigers in beating the Senators, 9 to 6. They scored all of their runs off Mitchell and Marberry in the first three innings, and then subsided.

Cooper was sent on his left-handed way in less than two innings, the Cubs beating the Pirates 6 to 2. Kaufman was strong at all times.

Mr. and Mrs. Dowdell, John Seabold and son Wm. of Elyria, called on Mr. and Mrs. J. A. Mackert and son Saturday evening.

Miss Helen Sabiers and Emory Schibler, of Amherst, called on Mrs. Lewis Ernst, Sunday afternoon.

Coal mining is rated as a very healthy industry. If a miner cuts himself when he is covered with coal dust his injury, say physicians, will heal quicker than if he was clean. Moreover, coal miners are not subject to consumption as workers in other industries.

A new gunpowder has been invented which is smokeless, flashless, and waterproof.

Prince Edward Island has 427 farms devoted to the breeding of fur-bearing animals.

The first British society for lowering the cost of living through co-operative buying and selling of staple commodities was formed 75 years ago by a few workers employed in a cotton mill near Leeds.

The first cargo of anthracite coal was shipped from Wilkes-Barre down the Susquehanna River in flat boats to the government armory at Carlisle, in 1775.

Anthracite coal was first used alone in blast furnaces of Pottsville, Pa., 1859.

In this time of financial uncertainty, you can not
do better than to put your money in a good, secure
industry, founded on a public necessity and one which
has shown its ability to withstand the shocks of de-
pression.

Our properties have for over ten years returned
a good profit to the Preferred Stock holders, and every
year the conservative and efficient management in build-
ing a more and more valuable structure on the already
firm foundation.

It will pay you to ask our security department to
give you the details on our 7% preferred stock.

FEDERAL FARM LOAN BOARD MEETS WITH PRESIDENT

Left to right, Commissioner R. A. Cooper, M. L. Corey, E. E. Jones, L. J. Pettijohn and John H. Gull, snapped at the White House.

President Coolidge recently conferred with members of the federal farm loan board on the difficulties today confronting the American farmer. The financial situation as it affects the farmer was gone over thoroughly. Coolidge met the board members in the White House at Washington, D. C. The financial situation of the farmer is bad at present.

LONDON, Aug. 30.—According to the Evening News this afternoon, the marriage of Allister M'Cormick, young millionaire, and Miss Joan Stevens, will take place at the British embassy in Paris on Oct. 1. Miss Stevens is said to be in Paris.

Lipton Trophy Yacht Race On

GLOUCESTER, Mass., Aug. 30.—Amid a din of whistles and cheers, the three contestants for the Lipton and Prentiss trophies, Shamrock, Henry Ford and Elizabeth Howard, set off today in the first of a series of races which will race off this port in many years.

STOCKS

NEW YORK, Aug. 30.—Rumors of a "corner" in Davison Chemical, seemed to be confirmed today when the stock shot upward 20 points at the opening of the stock market today. The stock has had a steady advance since Monday, rising from 30 to 52 on heavy trading, generally attributed to pool manipulation. Today the stock sold at 71.

There was a reactionary tone in the oil and railroad list at the opening, but industrials continued the advance which featured yesterday's close.

Steel stocks were inactive, but strong. U. S. Steel advancing 1-4 to 93 5-8. Canadian Pacific declined 5-8 to 145 1-4, while Baltimore & Ohio advanced 3-8 to 59 3-4. Pennsylvania 1-4 to 43 1-4, and Southern Railway 1-8 to 33 1-4.

Cash Oil declined 1-4 to 31 1-4. Pan American was up 1-8 to 61 5-8. In the industrials, Westinghouse gained 3-8 to 59 1-2. Continental Can was down 1-8 to 48 3-8. Studebaker rose 3-8 to 107 1-8, while Willys-Overland preferred advanced 1-4 to 67.

NEW YORK, Aug. 30.—The wide movements in Davison Chemical proved the stock market feature during the forenoon trading today. Pool activities soared the stock to a high price of 72, a gain of 20 points. This sensational advance gave rise to reports that a corner had been created in the issue. After getting up to 72, the stock reacted to 50 and then rose to 58. Specialties were made favorites during the early dealings. Virginia Carolina Chemical and General Asphalt being traded in on a heavy scale. General Asphalt made a further gain of 2 1-2 points to 36 1-2. Steel stocks were active and firm. Oil and railroad stocks held steady.

GRAFTON

By Mrs. A. M. Johnson Phone 653

GRAFTON, Aug. 30.—Rev. James Best of Westerville, O., was the guest of Mr. and Mrs. F. E. Schriver on Tuesday and Wednesday of last week. Mrs. A. D. Gunn and son of Oberlin accompanied Rev. Best to the Schriver home, where they were also visitors on Tuesday. Rev. and Mrs. W. H. Gibson, with Rev. Best, were the supper guests of Mr. and Mrs. Schriver Tuesday evening.

The complete arrangement for Grafton's fifth annual homecoming, to be held at the school ground, has been made and promises to be a big success. A full list of races and contests will be given, with a prize awarded in each event. The children's races will take place in the morning and a ball game will be held between the Richwine and Grafton Athletic Clubs at 10:30. The ladies of the Widening Circle will serve dinner in the basement of the M. E. Church at 1 o'clock. A good program, consisting of music, solos, quatuor and readings, with L. D. Hamlin of Elyria as the speaker of the day, will be given. The Blue Bird Orchestra of six ladies from Elyria will furnish music for the occasion. Following the program the races for the older ones will occur. Everyone, and especially all former residents, are urged to come and enjoy the day.

Seldom has a community been more saddened than at the news of the death of little William Jones, aged three years, only child of Mr. and Mrs. Miller Jones of Elyria, which occurred at the Memorial Hospital on Thursday following an accident in which he was kicked by a horse at the home of his grandparents, Mr. and Mrs. Seldom.

In former times it was regarded as very unlucky to plant a bed of lilies of the valley, as the person doing so would probably die in the course of the next twelve months.

OIL PAINTINGS

Mrs. W. R. Comings is exhibiting a few paintings of local scenes not shown before in the windows of Hurst's furniture store and Savage's jewelry store.

William Pfeiffer, southeast of Belden. The funeral, held in Elyria on Saturday, was largely attended. Rev. Gibson officiating. Burial was in the Belden cemetery. Four young ladies, the Misses Ruth Nesbitt, Iva Brunson, Marjorie Rogers and Norma Myers, acted as pallbearers. Both Mr. and Mrs. Jones were former residents of Grafton and have a large circle of friends whose hearts go out in sympathy to them in their sad bereavement. Mrs. Nellie Sechrist and daughter Leitch, who have been spending a week visiting their aunt, Mrs. Angie Robson, and other relatives, returned to their home in Wauseon on Wednesday.

Mr. and Mrs. A. D. Buck of Elyria were the guests of Mr. and Mrs. E. W. Reichard Tuesday.

Mr. and Mrs. J. H. Sheldon, Mr. and Mrs. D. A. Swartz, Irvin and Mrs. Kinney and Charles Swartz are among those who are attending the state fair at Columbus this week.

Mr. and Mrs. John Rush and daughter, Miss Bessie, of Edison were recent guests of Mr. and Mrs. A. M. Ewers.

Master Earl Outz of Lakewood is spending a few weeks with her grandparents, Mr. and Mrs. E. W. Reichard.

Mr. and Mrs. Clifford Webb and family of Lakewood were callers at the home of their aunt, Mrs. Angie Robson, Tuesday, on their return from attending the State Fair.

The Belden Farm Club picnic held at Chippewa Lake on Wednesday of last week, was very largely attended. Dinner, races and ball games were the day's enjoyment.

Miss Louise Law of Elyria is spending the week with her sister, Mrs. Irwin Kinney.

Mr. and Mrs. George Sharer of Cleveland were callers on Mr. and Mrs. A. M. Ewers Sunday.

Mr. and Mrs. E. E. Schriver and family attended the Haley reunion held at the Seneca county fair grounds on August 18. Mrs. Schriver and infant daughter were guests at the home of her brother in Timm Saturday night, while Mr. Schriver and the other children visited his parents at Mansfield. They returned home Sunday evening except Sarah Bernice, who remained for a week's visit with relatives. She came home last Sunday accompanied by her elder

Ship Colorado Added to Navy, Best in World

war—asmembled at the navy receiving station, across the Delaware river from Camden. The officers and men came over in small boats and after stowing away their personal effects in their new quarters were massed aft on the main deck. Representatives of the New York shipbuilding company and the machinery were on the quarter deck with officers of the ship and other naval officials.

After accepting the ship from the builders, Captain Trench read an order from Secretary of the Navy Denby putting the vessel into commission. Directed the hoisting of a pennant to indicate that the commissioning had been effected, and then formally turned the ship over to Captain Belknap.

As soon as the latter had read

NEW WAR ENGINE READY FOR TRIALS

Front view of Omnicor, new type of flying machine.

The inventor of the Omnicor, E. P. Johnson of Chicago, claims his machine will ascend and descend vertically, go backward and forward, and stand still in the air without reversing the engine. It reproduces the movement of a bird's wings, according to the inventor. Trials will be held shortly.

His orders from Secretary Denby he ordered the hoisting of the stars and stripes. While the colors were being hoisted to the mainmast, the ship's band played and members of the crew stood at salute. This marked the conclusion of the ceremonies.

The Colorado takes the place of the U. S. S. Delaware which will be scrapped under the terms of the Washington naval treaty. In addition to the West Virginia, the Colorado has another sister ship, the Maryland, which was commissioned about two years ago.

All three of the new ships were authorized by congress on August 29, 1916. They were designed after the battle of Jutland. In their design, was incorporated all of the lessons taught by that most important naval battle of the world war, and they are protected alike from direct fire, plunging fire, submarine torpedoes and airplane bombs.

The Colorado has a displacement of 22,600 tons. She is 624 feet long and her breadth at the water line is 97 feet, three and one-half inches. She has oil burning boilers which furnish steam to Westinghouse turbine generators which supply power for the electrically driven propellers.

Like the Maryland and the West Virginia, the Colorado carries eight 16-inch 45 calibre guns, mounted in four turrets. This is the most powerful armament permitted by the Washington conference. Her secondary battery for defense against destroyers, submarines and other light craft consists of twelve five-inch guns, and she also carries two 21-inch submerged torpedo tubes and eight three-inch high angle guns for defense against airplanes.

The warship commissioned today is the third naval vessel to bear the name Colorado. The first was a frigate of 3,400 tons, carrying forty guns which was launched in 1861, and the second was an armored cruiser, built in 1900, which became the U. S. S. Pueblo in 1916.

Catherine de Medici offered her guests a feast in 1545 at which the roasts alone—there were a dozen—other courses—consisted of peacocks, hunchards, capons, herons, pheasants, swans, cranes, geese, hares, rabbits, deer, pigs, quails, and ducks.

Bergdoll Gold Remains Hidden

WASHINGTON, Aug. 30. — The gold which Grover Cleveland Bergdoll buried in the Maryland and east Virginia mountains before he became an exile in Germany remains as safely hidden today as it was three years ago.

This is the conclusion reached by Col. Thomas W. Miller, the left property custodian, and William J. Burns, chief of the bureau investigation of the department of justice, after completing an investigation of reports that Lee C. Hager, a Hagerstown, Md., laborer, had unearthed \$100,000 of the Bergdoll treasure while excavating for a new road.

Agents sent to Hagerstown by Burns reported today that the outer story was a hoax and that one of the money buried by Bergdoll had been found.

Colonel Miller announced, however, that the government would continue its search for the Bergdoll gold and that whenever it was discovered it would become the property of the United States.

THEATRES

American—Ethel Clayton in "Can a Woman Love Twice?" from the story "The Greater Glory." This story treats of a mother-in-law who is a beautiful young woman with a lovable son of five. She loves the boy but passes herself off as a widow of a man believed to have been killed in France. The "dead" man comes back and after many dramatic complications the girl mother finds second love. Stirring battle scenes and a dynamic explosion furnish the thrills.

Grand—"The Sleep Walker," with Constance Binney in the leading role, has become a favorite, for it is well worth seeing. There are peculiar complications and a fine love story interwoven that attracts a great deal of attention. There is also a funny comedy and a fine additional film.

Dreamland—Kathlyn Williams in "Trimmed in Scarlet." The story of a mother separated from her baby since early childhood. She returns after the child has grown up and not knowing her mother champions her in the face of damning evidence. The situations are tense and very dramatic.

Colonial—Last appearance of Constance Talmadge in "The Nose in New Boro." This funny picture has pleased many and if you have not yet seen it do so. In and a new series of world's pictures.

According to a recent estimate, one-half of the cooking done in the United States is done with gas.

IN THE DAYS NEWS

George H. Moses, who is mentioned as the most likely successor to John T. Adams as chairman of the Republican National Committee, in the event of the nomination of President Coolidge by the next Republican national convention, is one of the present representatives of New Hampshire in the United States senate. Although he never filled elective office until he entered the senate in 1919, Senator Moses is not without experience in practical politics. He has been active in public affairs in New Hampshire ever since he was a student at Dartmouth College, when he was and Montenegro, in 1909, by President Taft and remained in Athens until 1912. He has always been a paper man, came in close touch with Granite State politics. He was appointed Minister to Greece that party.

Resistance Of Germans Will Be Broken

LONDON, Aug. 30.—British officials hailed with intense relief a report from Berlin that the German government has decided to give up passive resistance in the Ruhr, thus removing the chief obstacle in the way of a reparations settlement with France.

It is understood that the German decision to cease passive resistance was reached after a conference between Chancellor Stresemann and leaders of the Rhine-land industrialists, including Hugo

Stinnes. It had been reported previously that the British were advising the Germans to give up the policy of passive resistance, which was the outstanding feature of the late Cuno government.

The Germans are hopeful that the French will now lift the embargo upon traffic between occupied and unoccupied Germany.

Treasury experts who studied the Belgian reparations note found great variance between the communication and the proposals made by London. There was deep disappointment over the failure of Belgium to support the British suggestion of an international commission to fix Germany's capacity for payment.

VICTROLAS RECORDS

WHY THE VIOLANO IS GREAT

The Mills Self-Playing Violin and Piano is really the kind of an instrument which an imaginative mind would expect to be invented at some time far into the future.

The Violano bases its claim to fame on its complete newness and distinctiveness. Absolutely no instrument is manufactured today that in any way resembles or even imitates it. Even the greatest inventions have been copied, imitated, or in some manner duplicated. Practically every other musical instrument made has several other rival instruments in its own class. So completely different is the Violano that it can be called, without danger of contradiction, the ONLY self-playing violin of any kind.

SIMPLICITY THE KEYNOTE

When a coin is deposited in the instrument or the starting lever tripped, the contact cylinder, carrying the paper music roll, revolves. A wire brush passes over the paper, the fine strands of wire making electrical contact through the perforations in the paper. Every position on the fingerhead of the violins is under the control of an individual finger magnet, and when the contact is formed through the perforation the electric current draws the finger down against the string. The same current acts simultaneously on the bow action magnet; the bows, which are circular discs made of leaves of celluloid, are driven continuously by the bow motor and at the same instant that the finger is pressed against the string, dip down and sound the note. Another magnet produces the staccato, while the tremolo is obtained by means of a third magnet which vibrates the tail piece through the medium of the shaker bar. The magnets do what the human violinist's fingers do.

The Violano-Virtuoso succeeds in getting farther away from the common understanding of "automatic" than any other instrument in this class. Although its mechanism is self-playing, its music is in no way mechanical. The human element in the Violano is really astonishing to those hearing the instrument for the first time. There is a warmth and beauty to its playing that distinguishes its musical quality entirely from other automatics.

Announce

THE FORMAL PRESENTATION OF THE TRULY GREAT
ACHIEVEMENT IN THE HISTORY OF MUSIC

VIOLANO VIRTUOSO

WHAT THE VIOLANO IS

The Violano-Virtuoso is a musical instrument comprising two real violins and a piano.

The music is not merely LIKE violin music; it IS violin music. The violins are visible as they play. They are shaped like the standard violin; made of wood; have four strings and every position on the finger head. They are not imitations---they are REAL violins.

If you heard these violins playing behind a screen or in another room, you would be positive you heard real violins.

The piano accompaniment to the violin harmonizes perfectly with the latter to give the effect of an orchestra of from three to eight pieces, depending on the number of violins and the number of strings being played at the same time.

This instrument plays its music from a paper music roll and is under electrical control at all times. In putting the violin under mechanical action so as to produce music that perfectly simulates that of the master violinist, the seemingly impossible has been accomplished.

The music played on the Violano-Virtuoso is new and comprises the very latest, both in popular and classical selections.

The managements of The Paradise and of Day's Music Store cordially invite the general public to the Paradise Soda Grill to hear and see this wonderful instrument that required years of labor and over \$1,000,000 to perfect.

THE MOST DISTINGUISHED HONOR EVER CONFERRED ON ANY MUSICAL INSTRUMENT AWARDED BY THE UNITED STATES GOVERNMENT TO THE VIOLANO-VIRTUOSO.

Several reputable manufacturers of musical instruments can point to incidental honors—gold medals, awards of honor, etc.—conferred on their products at different fairs and expositions in this and foreign countries.

But no distinction similar to that won by the Mills Violano-Virtuoso was ever given to another musical instrument.

THE UNITED STATES PATENT OFFICE HAS DESIGNATED THE VIOLANO-VIRTUOSO AS ONE OF THE EIGHT GREATEST SCIENTIFIC INVENTIONS OF THE DECADE, a ten year period particularly replete with the most ingenious inventions of all kinds.

\$1,000,000 SPENT TO PERFECT THE VIOLANO-VIRTUOSO

To bring the Mills Violano to its present perfection many years of labor and over a million dollars in money were spent.

The creation of the Violano began about fifteen years ago when H. K. Sandell started working on a mechanical apparatus to play the violin.

It remained for Sandell, a hitherto unknown inventor in the employ of Mills Novelty Company, ably assisted by the financial manufacturing, and marketing resources of H. S. Mills and his organization to give the world of music lovers an instrument that brings the violin—from the artistic standpoint—not only UP TO the genius of the human musician, but BEYOND it.

ACME OF VIOLIN VERSATILITY

Since the first Violanos were made, year after year inventors and mechanics have worked on improvements to make this wonder instrument more and more human. Today, practically every means for procuring human expression has been added to the Violano in the form of various patented devices. Among these expression variants are tremolo, staccato, arpeggio, portamento, pizzicato, shake, trill, etc.

Women Tell Each Other How They Have Been Helped by Lydia E. Pinkham's Vegetable Compound

Perrysburg, O.—"I took Lydia E. Pinkham's Vegetable Compound because I suffered with pains in my sides all the time. I can't remember just how long I suffered, but it was for some time. One day I was talking with a lady I met on a car, and she told her how I was feeling, and she said she had been just like I was with pains and nervous troubles, and she took the Vegetable Compound, and it cured her. So then I went and got some, and I certainly recommend it for it is good. Whenever I see any woman who is sick I try to get her to take Lydia E. Pinkham's Vegetable Compound."—Mrs. ANA FRICK, Route 3, Perrysburg, Ohio.

In nearly every neighborhood in every town and city in this country there are women who have been helped by Lydia E. Pinkham's Vegetable Compound in the treatment of ailments peculiar to their sex, and they take pleasure in passing the good word along to other women. Therefore, if you are troubled in this way, why not give Lydia E. Pinkham's Vegetable Compound a fair trial.

"In 1860," Mr. Reemelin said, "we danced on the grass and the people came in ox carts and bugles. Now nearly all the farmers come in automobiles."

"But with all these modern improvements, I think the farmer of 1860 was better off than the farmer of today."

Addresses were made by Judge James B. Swine, Judge Stanley Struble, Rev. W. T. Paterson of Norwood and Rev. Paul Schmidt.

Pinchot Program
May Be Rejected
By Both Sides

ed from authoritative sources, the belief exists that the governor failed when he did not provide some method of insuring continued operation of the mines after Friday midnight.

Outside of the check off and the wage question the governor did not touch on the 11 demands made by the miners upon the operators. The miners have stated, it was pointed out, by several members of their committee here that they will not dig coal Saturday unless a new contract is signed. The governor's program, these same leaders say is not one which would result in the signing of the contract before that hour and at the same time fails to provide, in any way for continued work in the fields.

HARRISBURG, Pa., Aug. 30.—Miners and operators today in separate conferences will decide whether or not there is to be an anthracite coal strike on September 1.

Today the miners, with a full scale committee of 40 members, met at the Penn-Harris Hotel here, discussing the four proposals made by Governor Pinchot of Pennsylvania, seeking to avert the scheduled anthracite coal strike.

The operators, in turn, had gone to Philadelphia, where they were to meet today and pass upon the proposals submitted.

That the proposals favored the miners was the opinion at the state house here today, where Governor

GERMANY READY TO THROW UP HANDS;
WILLING TO CEASE PASSIVE RESISTANCE

Germany's richest man, Hugo Stinnes, left, with one of his lieutenants, on his way to pledge his support to Chancellor Stresemann, inset, in his plans for industrial peace.

The most startling news to come from Germany in months is the report that French and German industrialists have made a bargain for joint control of the Ruhr industries, that passive resistance in the Ruhr will cease and Chancellor Stresemann shortly will name an ambassador to Paris, empowered to settle the reparations question. Stresemann is said to be removing every obstacle, particularly passive resistance, to the conclusion of peace.

Pinchot awaited the joint meeting of miners and operators set for noon tomorrow.

At that time the plans will either be rejected or accepted by both sides.

At the state house today, where Governor Pinchot waits for the joint conference of the two factions tomorrow, it is generally believed the miners would accept the governor's proposals.

The stand of the operators was not so certain. It was pointed out by those close to the governor as well as un'ion men and those known to be favorable to the operators, that all four proposals were concessions to the miners.

While the union asked a 20 per cent wage increase for contract workers and a flat raise of \$2 a day for all day men, the governor suggested but 10 per cent. This was at least 2-1-2 per cent more than the miners had expected to be offered.

The operators, it is believed, would not object to paying this increase were they in a position to add at least \$1 a ton to the cost of coal.

Previous to the governor's proposal, Samuel D. Warriner, chairman of the operators' committee, publicly announced that a 20 per cent wage boost, as asked by the miners, would in turn cost the public \$2 a ton more on their coal bill.

The governor in his proposal said the operators could absorb at least 10 cents of what he said would be a legitimate 60 cents a ton boost in the price of coal, should the new wage demands be accepted by the operators. The other 50 cents, he said, could be absorbed by transportation and distribution.

It was pointed out, however, that the governor is without power to regulate either transportation on the railroads or distribution costs as charged by coal dealers. These same sources pointed out what they claim to be a joker in the governor's proposal—the statement that "if the public must pay this slight increase it can well afford to do so instead of being without anthracite coal."

The operators may accept this statement, grant the ten percent wage boost and in turn raise coal costs to the consumer.

The other three proposals were

of minor importance.

The semi-check off is now in effect in many of the mines, and a plan, almost like that advocated by Governor Pinchot is practiced at all mines. The governor's statement that the operators should "grant full recognition of the union," may prove a stumbling block in the acceptance of the plan by the operators.

There was little or no doubt, about the state house, that the miners would accept this semi-check off plan.

The eight hour day has been agreed upon, with minor reservations. This, while a victory for the union, is not expected to meet even the slightest opposition from the operators.

The principle of collective bargaining is already recognized in the anthracite industry, it was pointed out.

The unexpectedness of the departure, however, that Warriner and his aides, wished to go into conference with other operators of the anthracite field and believed this could be accomplished better in Philadelphia.

A report issued last night that the operators wished to discuss the advisability of calling upon the miners for a contract for pump men, and others employed to keep the mines free from water. This move would indicate that the operators were considering a rejection of Governor Pinchot's plan, it was pointed out here today.

The operators are known to have discussed calling on the miners for a pump man contract before their departure. James A. Gorman, joint secretary of the miner-operator conference, had a copy of such a contract in his possession last night, but it was not signed by the operators.

Both miners and operators today announced they would be ready to go before Governor Pinchot at noon tomorrow giving their answer to his program.

"Until that time I have nothing to say," John L. Lewis, international president of the union, said today.

Warriner, just before leaving for Philadelphia, said he had pledged himself not to talk.

CONGRESSMAN SUED
FOR HEAVY DAMAGES

WASHINGTON, Aug. 30.—Manuel Herrick, ex-congressman from Oklahoma, was made defendant here today in a damage suit for \$100,000, brought by Miss Mabel Crane, a government clerk. The suit was filed in district supreme court and is a counter action to Herrick's suit for \$50,000 against Crane for alleged breach of promise to marry.

WELLINGTON PERSONALS

Misses Louise Rolce, Mildred Buck, Lydia Hage, Eva Much and Herman Gannett, of Wellington, and Miss Lucille Thompson, of Rochester, returned home from Kent Normal college last night. Messrs I. T. Judy and A. J. Fultz are staying at the England hotel selling Vermilion-on-the-Lake lots.

Mrs. Ramser and daughter went to New York Monday, for their vacation.

Several people have presented books to the Wellington library.

sented turkeys purchased with state funds as holiday presents to a number of friends; that he purchased a 160 pound hog and substituted it for a 300 pound hog belonging to the institution, and had it slaughtered and shipped to his home; that McNamara's sister "entertained her bridge club" at the Delaware institution, and that prizes were taken from the institutional art cabinet, that large quantities of maple syrup mysteriously disappeared; that the "pretended charges against Mrs. Mae Stannard were inspired by McNamara"; that his friends who visited the institution filled their cars with gasoline from the state gasoline tank on the grounds, and that the welfare department appropriated an automobile rightfully belonging to the girls industrial school.

The charges relate to McNamara's conduct while he was ground superintendent and Mrs. McNamara was matron of the Delaware institution.

Governor Donahey is attending the fair, and has not yet seen the charges, it was announced at his office this morning.

Denies Charges

"I deny absolutely every charge made by the attorney general and I certainly shall request Governor Donahey to conduct a full and impartial hearing just as soon as the health of Mrs. McNamara will permit her to attend in person and answer to the charges," said Assistant Director McNamara today. "It is rather significant that charges of such a serious nature should be made at this time, when it is well known among those who have attempted to bring disgrace on both myself and Mrs. McNamara that Mrs. McNamara is making a fight for her very life," McNamara declared.

Say The Demands
Made On Greece
Are Unreasonable

ment council, who was absent from Athens, began a study of the Italian note immediately after his return. He said he felt the greatest indignation over the murders, and did not believe they had been committed by Greeks. President Constantas said he believed the assassins were Albanians who were disgruntled over decisions of the boundary commission. Before the cabinet met, it was reported in semi-official circles that some of Italy's demands were impossible of acceptance and that Mussolini would be asked to modify them.

The Athens government, it was said, was willing to express sorrow over the assassinations and pay indemnity to the families of the slain Italians, but could not accept humiliating conditions.

In the event of deadlock between Greece and Italy the government may propose that the matter be referred to the league of nations.

The secretary of the Italian legation charged that the assassinations were "due to Greek hatred which had been fostered by propaganda." The Albanian legation issued a statement denying that Albanians were responsible for the assassinations.

Inter-Allied Council Protest
PARIS, August 30.—The inter-allied Council of Ambassadors today sent a telegram to Athens protesting energetically against the killing of Italian officials of the allied boundary commission. Demands were made that the Greek government make immediate investigation.

Paris Says Fleet Concentrates

PARIS, Aug. 30.—Secret orders have been issued concentrating the Italian fleet at Taranto for a possible demonstration against Greece. A dispatch from Turin today. Troop concentrations are reported from the interior of Italy.

The Italian government is awaiting Greece's reply to the 24 hour ultimatum demanding an apology and reparations for the killing of Gen. Tellini, head of the inter-allied commission for delimitation of the Albanian frontier, and the four other members of his party near Janina.

Public feeling has risen to fever heat.

Italian press censorship forbids the publication of movements of troops and warships.

It is understood that Italy is preparing to send a division of soldiers to Piraeus whether or not Greece apologizes.

Premier Mussolini conferred with military officials at great

length. The Italian government is against Italy and not against the boundary commission.

An Italian is creating a sensation in Rome by treating a donkey as a boon companion. He has even taken it to a restaurant to dine with him. The lucky animal enjoys four cocktails, two portions of spaghetti, some "fruity" cheese, and several apples.
